## R. K. SMITH ACCIDENTALLY KILLED.

The lifeless body of a man, identi-  
fied as R. K. Smith by papers found  
in his pockets, was discovered about  
3:00 o'clock last Sunday morning on  
highway 96 in the western outskirts  
of Hondo. The unfortunate man had  
both lower limbs crushed besides  
other body bruises, but his death  
must have been instantaneous as the  
right side of his forehead was crushed  
in as if struck by a blunt in-  
strument. He had evidently been dead  
for some hours, as his watch had  
stopped at 3:05 o'clock. The lights  
were still burning on his car and the  
motor running at 7:30 when found  
and he had been passed unnoticed in  
the meantime by a number of passing  
autos.

Preceding his fatal accident, he  
had evidently fallen asleep, or other-  
wise lost control of his car. Traveling  
east, towards San Antonio, where he  
lived, from Eagle Pass, where he  
worked as a freight conductor, his  
car had left the highway and run in-  
to the right-of-way fence on the right  
hand side of the highway, and knock-  
ed down several fence posts. It had  
then returned to the roadway where  
it was found standing headed east.  
His hat was under the battered car  
and his crushed body some fifteen  
feet west of his car. Presumption is  
he had righted his car and was ex-  
amining the damage when he was  
struck by another motor vehicle going  
west.

The body was taken care of by  
John A. Horger, local mortician, and  
later in the day turned over to mem-  
bers of his family, who had been no-  
tified by the Sheriff's office force  
here, and removed to San Antonio  
for burial.

Smith, a railway conductor, was  
a native of Moscow, Ky., and had  
lived in San Antonio several years.  
He was a member of C. Spangler  
Lodge No. 2, Brotherhood of Rail-  
way Trainmen. He was 53 years of  
age.

Funeral services were conducted  
Tuesday afternoon with Rev. Sloan  
L. Batchelor officiating.

Surviving are the widow, Mrs.  
Tuleta Smith nee Mangold, daughter  
of Joe Mangold of Castroville; a  
daughter, Mrs. Lois Emerick of Dal-  
las; the parents, Mr. and Mrs. E. T.  
Smith, and two brothers, C. M. Smith  
and J. Floyd Smith, all of San An-  
tonio, and a grandson.

Highway patrolmen were soon on  
the scene of the accident and several  
small pieces of blue automobile paint  
picked up there served as clues for  
the officers in trailing the vehicle.

The machine was located in Uvalde  
and with the help of Uvalde officers  
its driver found. In a statement taken  
by District Attorney R. J. Noonan,  
the driver of the car, Raymond  
Keene of Uvalde, admitted having  
collided with a vehicle thought to  
have been a truck. The driver said  
he was unaware of having struck a  
person.

Charges were filed before Justice  
of Peace H. V. Haass of Precinct  
No. 1, Hondo, and the bond set.  
Keene will be brought before the  
grand jury at Hondo on January 16.

## OWLS END SEASON

### Swamp Sabinal Yellowjackets By 25-to-0 Score In Friday's Game

The Hondo Owls ended their unsuccessful 1938 football season by taking  
the Sabinal Yellowjackets to a score of 25 to 0. The Owls played a fine  
game and were battling throughout the entirety of it. Quite a few of the  
reserves got to see some action and proved their worth. One of the high-  
lights of the game was Holloway's touchdown, made on a forward pass, for  
a run of about 65 yards. Another was the center sneak, with Rucker totting  
the ball. This was the last game of the season and also the last game for  
six of the men, namely, Bader, Rucker, Grell, Schuehle, Weynand, and Pope.  
This was the Owls' second win of the season, losing six of the games and  
tying one.

In the first quarter, the Owls re-  
ceived the kick-off from Sabinal and  
marched up the field in the direction  
of the Yellowjackets' goal, making  
one first down after another until  
Kollman pushed the ball across for  
the first touchdown of the game.  
Bader converted for the extra point,  
making the score stand 7-0, in favor  
of the Hondo Owls. This was the only  
touchdown of the first quarter,  
neither team scoring in the remainder  
of the quarter.

### Two More Scores By The Owls In 2nd. Quarter

Two touchdowns were added to  
Hondo's score in the second quarter,  
one on a beautiful pass from Embrey  
to Holloway, who took the ball for  
approximately 65 yards to pay dirt.  
The other touchdown was made by  
Finger, who took the ball over the  
goal line for an additional six points.  
Neither of the attempts for the extra  
point were good, thus the score  
stands 19-0, in favor of the Owls.  
It was also in the second quarter that  
the Owls were down on the Sabinal  
1 yard line, when the ball, being  
fumbled, was recovered by Sabinal  
back of their goal line for a touch-  
down, the ball going to Sabinal on  
their twenty yard line.

### Owls Score In Final Quarter.

No scores were made in the third  
quarter, but in the last quarter  
Kollman went off left tackle, then  
lateraled to Grell who took the ball  
over the line for the final touchdown  
of the game. The attempted point  
again was void, leaving the score  
25-0, at the end of the game, favor  
of the Hondo Owls.

This was the game that ended the  
season for the Owls, and as a whole,  
the Owls have played good football,  
although they have defeated only two  
teams. If one would look back, he  
would remember the times that  
fumbles cost the Owls the game. The  
team had plenty of drive and played  
heads-up ball during the entire sea-  
son. It is also to be remembered that  
the Owls were never defeated by a  
score higher than 14 points which  
shows that the Owls were fighting  
a hard game, no matter what the op-  
position. It is a known fact that as  
long as a team keeps playing, defeat  
is sure to come to them sooner or  
later.

Next year the Owls are looking to  
a greater football season, although  
losing five of their lettermen. This  
should not hinder them to a great  
extent, as the members of next year's  
team will have more experience, as  
well as added weight. So we close  
this year's season, looking into the

These reports of the football games  
which the Anvil Herald has been  
printing during the season just clos-  
ing, were written by Burleigh Smith  
for his school paper, The Owl, and  
have been used by the Anvil Herald  
with his and The Owl staff's kind  
permission. We are pleased to make  
this acknowledgement of our indebt-

wish at the same time to congratulate  
the writer on the excellency of his  
reports and the Staff for having so  
capable and industrious a sports re-  
porter.

The football game on Barry Field  
Wednesday night between the Hondo  
All-Stars and the Castroville In-  
dependents came off as scheduled de-  
spite the severely cold weather. The  
crowd was very slim, however, and  
most of the fans sought the shelter  
of their cars on the sidelines. The  
final score was 18-0 in favor of the  
All-Stars. The proceeds of the game  
will be used to defray part of the  
costs of the Owls' honor sweaters.

PANTRY ACHIEVEMENT DAY.

A well filled pantry and a daily  
record are worth the time and effort  
to farm women as Mrs. E. A. Ben-  
dele, pantry demonstrator for the  
Quibi-New Fountain Home Dem-  
onstration Club, pointed out at a meet-  
ing in her home Friday afternoon,  
November 11, 1938.

Mrs. Bendele gave a detailed re-  
port of her poultry for the past year.  
A daily record on egg and expenses  
for feeding helped to determine the  
exact profit on her hens, she explain-  
ed. Likewise, she kept an account of  
meat, milk, butter, and vegetable pro-  
duction on her farm. Her pantry was  
opened to visitors for inspection.  
The lower shelves were filled with  
meats as this is the coolest part of  
the pantry. The other foods were ar-  
ranged in these classifications:

Leafy vegetables  
Starchy vegetables  
Other vegetables  
Fruits and fruit juices  
Pickles and relishes  
Preserves and jellies  
Miscellaneous

A number of room-games were  
played during the afternoon. Prizes  
were awarded to Mrs. Crawford, Miss  
Nell Foley, Mrs. Alfred Boehle, and  
Mrs. Henry Schuehle. The prizes were  
taken from the gift table which the  
club women had prepared. The pur-  
pose of the gift-table was to show  
how farm women could prepare nice  
christmas presents from their pantry.

Delicious refreshments consisting  
of sandwiches, cake, cookies, and  
coffee were served to the following:  
Mrs. Jake Haby, Pauline Haby, Mrs.  
Henry Haby, Mrs. Boodie Gerdes,  
Mrs. Harm Gerdes, Clara Wurzbach,  
Mrs. L. Boehle, Mrs. John Horecka,  
Mrs. Alfred Boehle, Mrs. Crawford,  
Miss Nell Foley, Mrs. Riley Sittre,  
Mrs. Louis Oefinger, Mrs. Arnold  
Balzen, Mrs. Henry Schuehle, Mrs.  
Willie Schuehle, Mrs. E. A. Bendele,  
Mrs. Robert Riff and Mrs. Alvin  
Balzen.

Reinhart Weber, Utopia ranchman,

here last Thursday to attend a meet-

ing of the Uvalde Wildlife Planning board, told of a pet buck deer on his place which is fairly safe from hunters' guns this year. Every now and then some hunter tells of killing a muley buck and Weber has learned the "why and wherefore" for the deer on his place has only recently shed its antlers. For two or three years the buck has shed its horns much later than the other deer and Weber is wondering if his deer is not just a little bit smarter than the others by waiting until the hunting season comes around for the seasonal shedding.

HIGHWAY 90 STRIP IS OPENED.

Offering the assurance that the Big Bend section is no longer "the step-child of the State of Texas", W. Lee O'Daniel, governor-elect of the state, formally opened the last stretch of paving between Marfa and

Van Horn on Highway 90 Monday at 8 P. M. in a special dedication service.

O'Daniel declared that every effort to make a national park in the Big Bend section will be made. He lauded Texas highways as one of the sources of revenue and as a great aid in the development of the state.

Plans for the old age pension and industrialization of the state through more and better highways, bringing more tourists, and development of an advertising campaign to sell Texas to the United States were also mentioned by the governor-elect at the dedication.

Following the dedication service, O'Daniel went on to Alpine and Tuesday was inspecting the site of the proposed National Big Bend Park.

Del Rioans attending the dedication, which was attended by approximately sixty representatives from towns and cities along Highway 90, were Fred Childs, H. J. (Jap) Love, Dick Owen, John L. Dodson, R. H. Word, Jas. C. Netts and R. H. (Bob) Martin.

In addition to O'Daniel, Lieutenant Governor-Elect Coke R. Stevenson attended the dedication as did Judge L. J. Wardlaw of Fort Worth.

Getting ready for a fall garden was part of the work done by Mrs. J. C. Potter, food supply demonstrator for the New Harmony Club, (Rusk county). All old growth in her spring garden has been removed and the ground replowed, but not as deep as for the spring garden. Dry spongy barn yard fertilizer will be worked in to help the soil hold its moisture and furnish plant food.

Shifting 200 acres of good land from cultivated crops to improved pasture has proved profitable for C. E. Carter, of Bonus, (Wharton county), farmer and stockman. He has mowed weeds from other pasture land and plans to improve several more hundred acres during the year.

## AMERICAN FARMS SHOWN WORLD'S MOST FORWARD.

American farms have become the  
most mechanized in the world, ac-  
cording to S. H. McCrory, agricul-  
tural engineering expert.

Mr. McCrory pointed out that  
while the steel plow and grain har-  
row were invented only 100 years  
ago, gasoline tractors came into use  
less than 25 years ago and electric  
power on farms is even more recent.  
"Today there are more than 1,250,  
000 farm tractors in use and electric  
power is available on 1,000,000  
farms," Mr. McCrory said. "Huge  
combines that harvest 100 acres of  
wheat a day are common in the  
Great Plains."

There is a strong tendency, Mr.  
McCrory said, for engineering im-  
provements to aid the family-size  
farm. Among recent developments  
are the handy general-purpose trac-  
tors and the "baby" combine grain  
harvester adapted to small fields.

Washington has an ample supply of  
food for thought this week.

As though analyzing election re-  
sults was not sufficient exercise for  
the mental giants of the capital, the  
results of a public poll on questions  
dealing with business reform have  
cropped up for them to think about.

The poll, conducted by Fortune  
Magazine, evidences a public attitude  
on the reform question that has both  
surprised and alarmed some of those  
in the Brain Busting war council  
chambers. And it comes just as the  
Brain Busters are ready to descend  
in flying squadrons on the monopoly  
investigating committee with requests  
for more reforms and government  
control of business.

First and most important among  
the attitudes revealed by the poll  
was this: The Nation believes over-  
whelmingly that profit is the main-  
spring of recovery. In other words,  
the public believes recovery can be  
realized only when businessmen are  
permitted to make and retain profits,  
and that taking profits out of busi-  
ness by taxation and spending that  
money for Federal subsidies and re-  
lief won't work.

Seventy-five per cent of the pros-  
perous and 65 per cent of the unem-  
ployed expressed this attitude in the  
Fortune poll.

—WSS—  
In these days of much talk about  
"liberals" and liberalism in govern-  
ment, another interesting attitude  
was revealed by the poll. The ques-  
tion asked was, in effect: "What is  
your idea of a truly liberal pro-  
gram?"

Only seven per cent thought a lib-  
eral program for government should  
mean a new economic setup under  
government control, with profits  
abolished.

Fifty-two per cent of those having  
an opinion on this question, an-  
swered: "As much social reform as  
possible without injuring capitalism  
or preventing capital from making  
what profits it can."

Thus, only seven per cent of For-  
tune's poll voters favor the Brain  
Busters' concept of liberalism.

—WSS—  
There is another interesting public  
opinion being manifest around the  
capital these days. It concerns the  
Congressional committee investigat-  
ing Communism, Fascism, etc., in the  
United States at which brickbats have  
been tossed by labor agitators, poli-  
ticians and others of late.

John Public, it would appear from  
the Capitol's mail bags, has taken up  
the pen to rebuke the rebukers of  
the committee. Nearly 200 letters  
and dozens of telegrams are reach-  
ing the committee every day, lauding  
the investigators for unmasking un-  
American groups and sympathizers.  
The percentage of letters praising  
the investigation, according to com-  
mittee clerks, is about as high as the  
advised purity of a well known  
commercial product—99 44/100 per  
cent.

—WSS—  
Incidentally, announcement by the  
committee that its funds are exhaust-  
ed and the investigation may have to  
be ended, has brought a response  
that has surprised veteran observers  
around Capitol Hill. Many of the  
letters received by the committee  
contain checks, a currency or coin  
contributions to finance continu-  
ance of the job.

By law, Congressional investigat-  
ors are forbidden to accept any pri-  
vate contributions. All donations to  
the Dies Committee are being return-  
ed, therefore.

—WSS—  
Civil liberties notes: A flying  
squadron of C. I. O. pickets descend-  
ed on the main gates of a Pittsburgh

steel mill last week and refused to  
let workers enter the mill if they did  
not produce a paid-up C. I. O. union  
card. In California, an attempt was  
made to bar Yehudi Menuhin from  
appearing on a musical program be-  
cause he refused to join a union (at  
a cost of \$75 in dues).

No tickle, no workee!  
—WSS—

A warning for folks who like to  
keep pulling rabbits out of the hat:  
A man in Australia set three rabbit  
traps for an eagle which was killing  
lambs. He bagged two of his neigh-  
bor's dogs and put his own hand in  
the third trap.

## Is Educational Freedom Dead?

As Americans we have always been  
proud of our institutions of higher  
education, built largely by the contri-  
butions and endowments of those  
who have prospered under our sys-  
tem of private initiative and free en-  
terprise.

Thoughtful Americans might well  
pause, however, and reflect on the  
warning by President Ralph Cooper  
Hutchinson of Washington and Jef-  
ferson College that the days of the  
so-called independent colleges are  
numbered if present trends con-  
tinue.

Forecasting elimination of these  
institutions within fifty years, Dr.  
Hutchinson said: "The reasons for  
this are obvious. These colleges are  
supported through gifts from the sur-  
plus of individuals, and this surplus,  
although earned, is now being taxed  
away from individuals."

He asserted that funds raised by  
"confiscatory taxation" were being  
used to create "unnecessary and  
enormously expensive institutions of  
higher learning."

If Government pays the bills, he  
continued, Government will dictate  
the nature of subjects to be taught.  
"Nowhere in the world were univer-  
sities so free of political domination  
as in Germany when this system was  
instituted," he said, "but when Fas-  
cism rose in Germany, these sup-  
posedly free institutions were the  
first to be subjugated."

it doubtless will not even be sub-

is virtually certain that some plan  
based upon it, calling for a huge  
state bond issue, will be brought to  
the floor during the regular session.  
The county officials of many coun-

## O'Daniel Makes A Discovery

Gov. Elect O'Daniel's plan for a  
State RFC to lend \$15,000,000 to  
new industries, after a one-week  
public airing, has been abandoned,  
O'Daniel announced this week.

The reason for it, O'Daniel re-  
vealed, is because he "has been busy dis-  
covering that Texas has just such a  
setup." The Governor-elect has dis-  
covered what some 129,000,000 of  
his fellow-American citizens have  
known for the past 10 or 12 years—  
that the Federal government has an  
organization known as the Recon-  
struction Finance Corporation, which  
is headed by a well-known sound-  
thinking Texas banker, one Jesse  
Jones, of Houston.

The Governor-Elect has now found  
out what nearly everybody else in-  
terested in the subject already know  
—namely, that the RFC, by special  
authorization of Congress, has been  
making loans to small businesses and  
large, new and old, at low interest, to  
enable them to expand or begin  
operations. Of course, Mr. Jones  
only makes sound loans, but he has  
some \$900,000 of small industrial  
loans outstanding now in Texas, and  
there is available up to \$150,000,000  
more for Texas, if the borrowers are  
sound. Mr. O'Daniel included in his  
statement that he was "not prepared  
to concede it would be necessary to  
have a constitutional amendment" to  
carry out his plan, but the Constitu-  
tion says it would, anyway. In an-  
nouncing his astounding discovery  
that the RFC has been on the job for  
years, Mr. O'Daniel also took a crack  
at the legislature, when he remarked  
that "We already are meeting head  
And it didn't take an act of the Legis-  
lature to do it."

## Oil Hearing Quiet

The monthly prorator hearing in  
Austin this week brought only a  
handful of oilmen, and the excite-  
ment over Saturday and Sunday  
shutdowns apparently had died out.  
Only Ray Starnes, of Gladewater,  
protested them, and hinted he might  
file a suit to test legality of the  
shutdown order, if it is continued  
through December, as expected. Com-  
missioner Lon Smith declared he  
wouldn't sign the order if it called  
for Saturday and Sunday shutdowns,  
but operators here believe Commis-  
sioner Thompson and Terrell would  
continue rigid prorator. Resigna-  
tion of Laten Stanbery, once a  
country newspaper editor, as oil and

## Editors See Dams

Members of the Texas Editorial  
Association, all veterans of 20 years  
or more of newspaper work, con-  
vened in Austin, were entertained by  
Jack Dies at his beautiful ranch home  
near the capital, and spent a whole  
day inspecting the Colorado River  
Authority development, as guests of  
SRA and Contractor Herman Brown,  
who is building Marshall Ford dam.  
The editors were crammed with facts  
and figures about flood control, re-  
clamation, irrigation and power de-  
velopment. They were feasted on  
barbecue and chicken, and thorough-  
ly enjoyed the outing.

## A Word To The Wise ALKA-SELTZERIZE

Millions of users feel that they get quicker, more pleas-  
ant, more effective relief from ALKA-SELTZER than from  
old-fashioned unpalatable preparations. That's why  
ALKA-SELTZER is more in demand than almost any  
other single item in the average drug store.

We recommend ALKA-SELTZER for the relief of  
Gas on Stomach, Sour Stomach, Headache, Colds,  
"Morning After," Muscular Pains, and as a Gargle  
in Minor Throat Irritations.

We really mean it.  
Use ALKA-SELTZER for any or all of these discom-  
forts. Your money back if it fails to relieve.

In addition to an analgesic (Acetyl-Salicylate  
of Soda), each glass of ALKA-SELTZER  
contains alkalizers which help to  
correct those everyday ailments  
due to Hyper-Acidity.

In 30¢ and 60¢ packages at your  
drug store.

## AN INTERESTING EXPERIMENT.

Uvalde, Tex., Nov. 19.—An un-  
usual experiment was under way here  
this week as a crew of men began  
blasting several probable sites of  
underground caverns in outcroppings  
of Edwards limestone on the upper  
reaches of the Leona River water-  
sheds. The project is sponsored by the  
Uvalde Chamber of Commerce, and  
follows a recent suggestion by F. M.  
Getzenander, well-known geologist,  
who expressed the belief that flood-  
waters in the Leona ordinarily lost  
by run-off could be diverted into  
these underground caverns and re-  
plenish the supply of water in the im-  
mediate vicinity of Uvalde. Should  
the caverns be opened by the blasts  
the chamber of commerce will con-  
sider the building of dams on the  
down-stream side of the caverns so  
as to impound the water until it can  
find its way into the Edwards lime-  
stone. San Antonio Express.

## NOT RIPE

"These eggs are very small", com-  
plained the housewife to her grocer.  
"Straight from the farm this morn-  
ing, madam", declared the grocer.  
"That's the trouble with these  
farmers", she persisted. "They're so  
anxious to get their eggs sold that  
they take them off the nest too  
soon".—Wall Street Journal.

## COULD TAKE SOMETHING HEAVY

"Can you let me have a book

"Certainly", was the reply. "Do  
you want something light?"  
"It doesn't matter a bit", said the  
customer, helpfully. "I have my car  
with me."—Tit-Bits.

## PEARSONAL APPEARANCE.

Judge A. H. ROTHE has turned up  
some unusual data relative to the  
late of past presidents of these  
United States... it seems that each  
incumbent elected during every 20th  
year has died in office... beginning  
with W. H. Harrison (1840), Abra-  
ham Lincoln (1860), James A. Gar-  
field (1880), William McKinley  
(1900) and Warren G. Harding  
(1920)... and the JUDGE hopes  
the fellow elected in 1940 isn't su-  
perstitious.

Among the first words prattled by  
DONNIE, the year-old son of the  
ROBERT KOCH's is "Hi Yo! Silver!"  
THELMA LYNCH has a touch of  
genius when it comes to making  
divinity... 'tho she avers it's only  
a dash of peppermint.

We admire the satin-smooth com-  
plexion of FRANCES HAEGELIN  
MEYER and also her daughter, San-  
day... LUCILLE BOON NEW-  
COM's taste in clothes... The way  
FRANCES RUTH FLY's mouth turns  
up at the corners... Cashier CHAS.  
FINGER's ability to add figures.

HERBERT DECKER, blaming his  
hunter's bad luck on "too many  
baldys"... there's a slight resem-  
blance between the front-cover lady  
on the December McCall's and LUCY  
DAVIS, with the former far and  
away the better looking (we'll pay  
for that remark)... HARLEY  
ECKHART, FABIAN GARRISON  
and ASHBEL GILLIAM attended the  
Fourteenth Annual field trial of the  
South Texas Wolf Hunters Associa-  
tion near Charlotte... the kill was  
25 or 30 COYOTES.

After distressing sessions with our  
dentist, we are more prone to notice  
the beautiful teeth of others... and  
we envy such priceless pearls as those  
of MARY ANN NOONAN and MRS.  
JACK LACY... if you don't believe  
these are selected ask someone who  
spots the store-boughten kind.

Did you know... that the Raye

QUIHI NOTES.

And it came to pass, when Laban heard the things of Jacob... that he ran to meet him, and embraced him, and kissed him, and brought him into his house. And he told Laban all these things. Gen. 29:13.

After the tempestuous salutation, starting with that "eloquence of touch", mingled with a good cry and ending with a volume of explanations and a bubbling recant of home affairs far away, the flight, the trip, the safe arrival—Jacob being the sole actor and speaker—after all this, the flustered girl, Rachel, had run home and unloaded the news of the strange newcomer, perhaps also her strange experience and first impressions (to mother only, of course; dad wouldn't understand; dad's are still rather callous about those sentimental intimacies. They are apt to call it slush and buncombe. Only mother has retained that particular sensorium, and she comes the clearing house for these matters, the interpreter for guide. And let's be thankful for it. Those conditions and experiences need mature guidance. Mother usually knows how, without becoming a killing frost on a tender growth of legitimate feelings or sighing belows to blow the first tiny flames into a consuming fire, but weighing matters pro and con and then advise accordingly, with her whole sincere heart going along for good measure and as a kind guardian angel. There would be less misery in matrimonial matters, if that good office would be faithfully performed, and in time). And now, after that long parenthesis, let us turn our attention to Laban, the startled uncle. As soon as he was able to make head and tail of the damsel's rather gibbering talk, he ran as a reception committee of one, embraced, kissed (the Austrians would only kiss the hand, the Turks, touch lips, forehead and turban with the hand, a few Moslem tribes lay cheek on cheek, the Maori rub noses), proper length required, and our American young and democratic debutante make their salaam, nose-tip nearly touching the Brussel carpet, to the English royalty, at approximately \$1500 for routine and drill expenses.) Another parenthesis and Jacob stands in the cold meanwhile. But now he is brought into the house. Wonder whether he saw much and without a blur while two eyes were pinned on him and his own eyes freakishly failed to function and focus the main personnel of that household. Somehow he managed to tell "Laban all these things." Would he speak without reserve, rightly dividing shadow and sunshine, truth and fiction, guilt and innocence? It would have amounted to a shameful confession of a more than questionable role. Would he dare, the very first day, standing in his own light and flinging a painful shadow on his character and future? How fast those bygone sins are apt to entangle the perpetrator. What embarrassing situations they create. How anxious they are to clamor for more sins, seemingly to sidestep and cover up and safeguard, where, in reality, by ordinary arithmetic, one sin and another sin do not cancel each other, but sum up into two sins. Would he make a clean breast of his past—in the presence of the admiring young lady, or would he carry the vexing burden of his guilt into the days to come, subject to a sudden disclosure

from other sources some unexpected day? We know of those war stories that took on lusty color after the last shot was fired and the ocean was recrossed, thriving with luxurious growth in the homeland and often becoming twin brothers to those "famous" fish-stories that lay the listener on his back with snorting unbelief. We often hear of those recollections of brawls and fights recorded on the police blotters, or any criminal offense, how innocent, wrongly suspected the narrator stands pitied, even admired, till the trial reveals the shaking, lying scoundrel. Bad enough, but it's different with Jacob. He is a man with a conscience, a man of God, who had touched him to the quick in that dream, and to whom he had made a prayerful vow that must check his conduct. Would he remember, and not enter this his second home with a lie on his lips? And what would he say in defense of his poor mother? Keep silence or lay her actions bare in front of her brother, Laban? Was she trembling at home these days? How those sins make a sorrowful plight all around.

Mrs. W. J. Saathoff again is going through one of those aggravating spells of disease that weaken her enfeebled body and distress her usually contented disposition. May the Lord give her strength in her martyrdom that she carries over twenty years now, though surrounded by every care possible.

Tomorrow—Thanksgiving Day. And how that cold norther is howling through the night, singing a doleful song to my typewriter clicks. Prospects for services poor, for other outings perhaps better. Often we remember those filled churches up north at 15 below, not below freezing, but below zero. Warmer blood, warmer hearts? May these hearts be aglow with the thanksgiving spirit, no matter where they are.

## LA COSTE LEDGERTTES.

From The LaCoste Ledger.  
ENJOYED VISIT TO LOWER VALLEY AREA.

Mr. and Mrs. Paul Jungman, who attended the wedding of their daughter at Corpus Christi Monday morning, enjoyed a tour of the lower Rio Grande Valley on Saturday and Sunday, returning to Corpus Christi in time for the wedding early Monday morning.

They were accompanied by their son, Walter Jungman, from San Antonio and Miss Doris Bippert and Henry Zinsmeyer of this city and drove all the way down to Brownsville. They were greatly enthused about the wonderful citrus crop and the fine vegetables growing on every farm. They also visited many places of interest along the route.

Following the trip to the valley, the LaCoste people visited Port Lavaca and other gulf coast towns before returning home Tuesday evening. In all they drove 902 miles without a mishap of any kind.

## SURPRISE BIRTHDAY WITH TURKEY FEAST.

Mrs. A. H. Ahr was pleasantly surprised Saturday evening when her children arrived at the Ahr home for a visit and brought with them a well-baked turkey and the trimming necessary for a real birthday feast. ## TO MY SWIM SUIT

Good-bye till next summer, you've been a good pal;  
But alack and alas, here's the rub:  
The season for swimming is over, and now  
I've got to get back to the tub.

I've stretched out my figure (it's nearly a "six")  
In ocean, in pool, and in lake;  
But now I must "double all up" in cement,  
And bathe just for cleanliness' sake.

No more in a "jack-knife," or airy, light "swan"  
I'll pose as a champion hope;  
From now till next summer I'll practice alone,  
And do all my diving for soap.

Let us be your PRINTER.

## DREAMS OF DEEDS?

It isn't the thing that he thought of  
That brought to the great man fame.

It isn't the things that he dreamed of  
That makes us remember his name.

We've not much patience with dreamers,  
We don't value things not begun.

The things that a great man's name stands for  
Are the things that he really has done.

Those dreams which seem so stupendous  
Mean little unless we act.

The world around smiles at our farce  
Unless it is followed by fact.

So, let's turn our fond dreams to action,  
Let's see if they'll bring us some fame.

And try, by our deeds, not our fancies,  
To make folks remember our name!

## OFF THE DOLE, ON THE PAYROLL.

By T. C. Richardson,  
Secretary Breeder-Feeder Association.

Last week we discussed the folly of keeping livestock and poultry "on the dole"—just enough feed to keep them alive. Everyone will agree that they don't pay until they are on the payroll, which means placing them on a producing ration. Thinking of the farm as a factory turning raw materials into commercially finished products, the livestock may be considered both as machines and as labor. As machines they transform raw materials into new forms; as labor they do part of the work for themselves.

As machines they must have all the raw material for which they have the capacity; as labor they must work regularly at the job, if they are to pay a manufacturing profit to the owner. It is the owner's job to see that the raw material is supplied as needed, in the proper combinations, in productive quantities, and at regular hours so that there will be no idle time for the machines and laborers.

If it takes twenty-five pounds of feed daily to keep a cow giving a gallon of milk, she must have more feed to produce two gallons, and still more for three gallons. Authorities estimate that twenty-five-pound hens can get along on seven pounds of feed per day, but it will require nine pounds for the same twenty hens in full laying. Since feed is totally digestible this means that allowance must be made for the indigestible waste materials in the feed, which varies widely in different feeding materials. Production or sale, whether of eggs or milk,

of beauty—things that give us a feeling that we are lifted from daily routine. We may be walking along a country lane—maybe it's noon-day and the sun very warm—little flowers blooming along the roadsides, some wilted in the prime of their beauty. After a while a shower will come—with raindrops like diamonds glistening in the sun that invariably follows a summer shower.

We probably go down the road a little farther and find a small boy in overalls, with a big sun hat, barefooted with a fishing pole and a broad smile. He's finished his chores for the day and now he will enjoy his favorite sport—fishing. We exchange a few words and the day moves on.

There seems to be an urge to be alone. Like the little boy who's going fishing, we seek a lonely spot on

comes from the surplus of feed above a living ration.

The substance of this theme is to take the animals and fowls off the dole and put them on the payroll. The quicker the feed is turned into a saleable product the better the chance of profits—always with the reservation that the ration is properly balanced for the purpose it is intended, and that it shall be supplied at the rate at which it will be most efficiently utilized.

It is a common saying that "a fat hen won't lay", but it is certain that a poor one can't lay. The "fat hen" theory is putting the hen before the horse—the hen gets fat because she isn't laying and, therefore, turns her food into fat instead of into eggs. This may be her own fault (lack of laying capacity) but it is just as likely to be because the feed she gets is better adapted to fattening than to egg production.

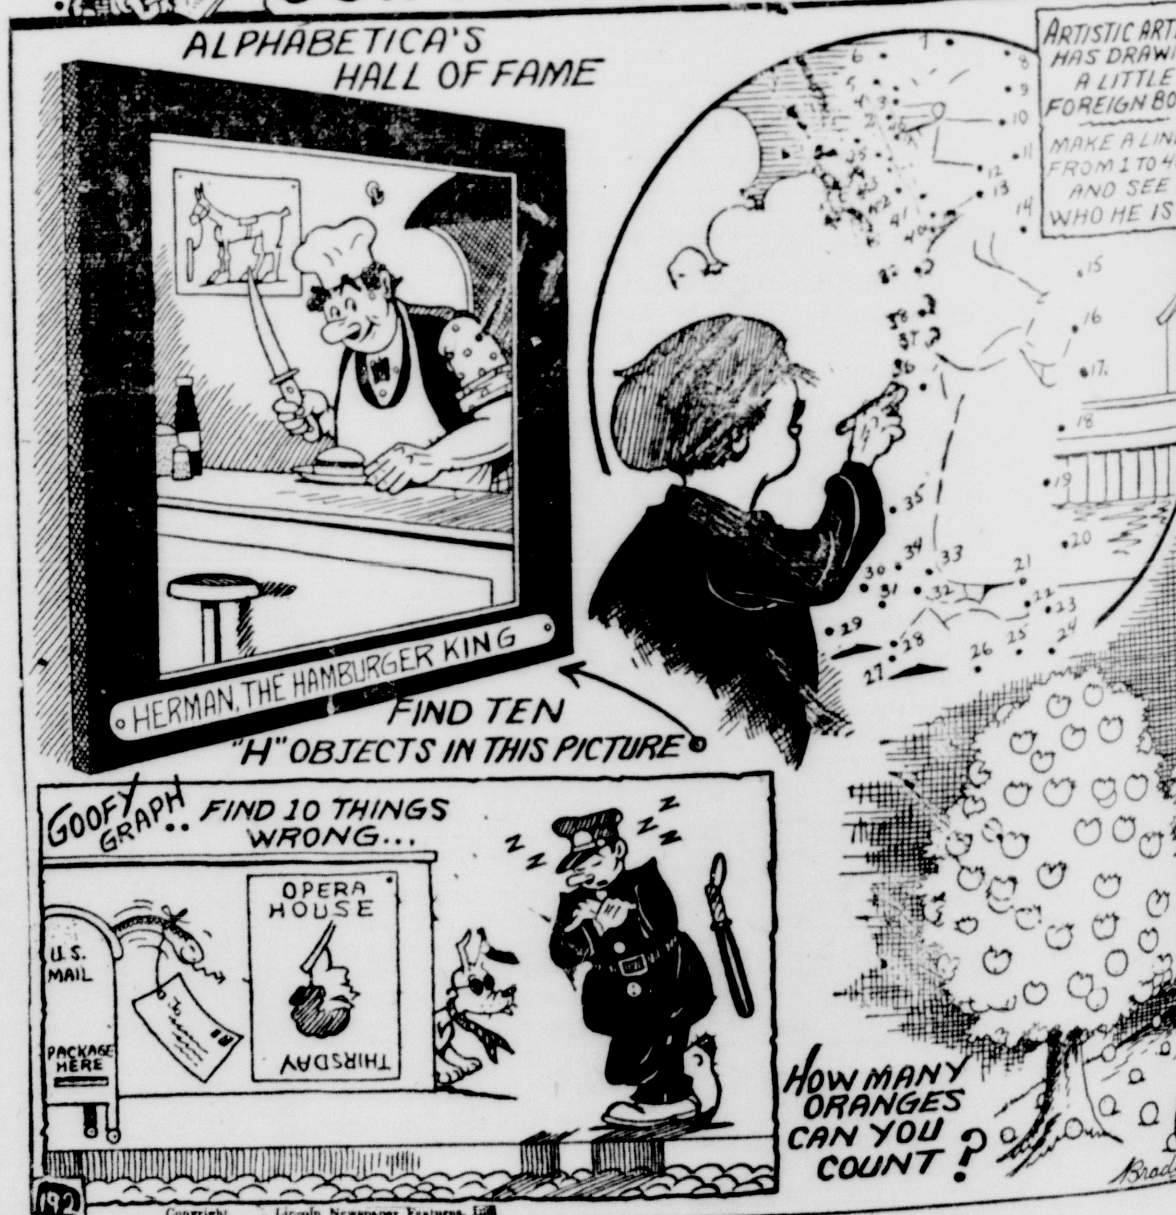

Now is a good time to start to light weight turkeys on full feed for the Christmas market. Ross M. Sheedy, Chief of the Poultry Husbandry Division, Texas Agricultural Experiment Station, quotes a man who has handled a great many turkeys saying that "my records show that the profit in turkey raising is almost in direct proportion to the size of the birds."

In other words it costs about the same to raise a small framed turkey to the finishing period as a large one and the latter has a larger capacity for putting on edible meat. Since pound of turkey is practically always worth more than the several pounds of feed required to make it, the bird which will use the most feed in the finishing period is the best market for the feed.

Whatever the size of the skeleton it is only the fat turkey which will bring the top market price.

The thoughts we have, the peace we meet, reactions to situation work and play make this an interesting road—this road of life.

### F. F. A. Boys To Raise Registered Hogs

F. F. A. Boys, at a meeting last Wednesday night, Nov. 16, discussed a hog improvement drive in the vicinity of Hondo. In this drive the boys purchase registered gilts or sows and raise registered pigs which are to be sold among the farmers of this community, in this way improving the breed of hogs. Plans are being made toward this goal. About twenty boys have indicated that they wish to participate in the drive. The classes of breeds of hogs are, Duroc, Jersey and Poland China.

For the past week the two agriculture classes have been cooperating with the local farmers in simple farm jobs. The part-time class, which has been meeting every Thursday night, has been very successful. A study on the care and management of poultry is being made by these boys.

### Homemakers Visit City Bakery

The net profit from the cake sale held last Saturday by the Second Year Homemaking Girls was \$19.50. This same class also visited the Hondo Bakery last Wednesday afternoon, November 16. Mr. Matt Rath, owner of the bakery, clearly explained the entire process of bread-making and baking.

As the Second Year Homemaking Girls have just studied bread-making in class, the visit with the explanation, was unusually interesting.

### Senior Lettermen Receive Sweaters

As a reward for their lettering in football, four seniors were given sweaters last Tuesday.

Fred Bader, tackle and captain of this year's team, possesses the most coveted sweater—one that has four stripes and a star. Clinton Grell and George Rucker have two stripes on their sweater's arm. Grell played half-back position on this year's eleven and Rucker was center. Playing end, Walter Weynand, won his first letter this year.

Other letter-men will receive their sweaters soon.

All members of the Pep Squad were also informed that each would be required to pay an additional twenty-five cents to help defray the expenses of the banquet.

the subject, Pep Squad leaders for

the next football season will not be

elected until later in the year.

### H. E. EXHIBITS CORRECT TABLE SETTING

The Future Homemakers had an interesting exhibit for the P-T. A. meeting last Tuesday night.

An attractive color scheme of yellow and green, suitable for breakfast, was used in the dining room. The table was laid with four covers for a breakfast menu. Other things exhibiting the work of the girls were the posters which showed the correct placement of silver, glassware, china, and linen.

Exhibits were also displayed. The exhibit showed how varying amounts of fat change the appearance as well as the texture and lightness of the biscuits.

Other exhibits were the orange marmalade, apple butter, and mint jelly, prepared by the Second Year Girls this semester. The recipe cards compiled by all classes were also on display for the visitors.

The girls of all the classes extend thanks to those who visited their exhibits.

### H. E. GIRLS SELECT APPROPRIATE CHINA FOR BREAKFAST

In connection with the breakfast now being studied by the first year Homemaking class, the girls of this group made a field trip to Holloway's Hardware Store last Friday morning, for the purpose of selecting china suitable for breakfast. A gay, informal pattern was chosen as the most appropriate for breakfast, and this set, among the other types suitable for luncheon and dinner, was borrowed for the exhibit for Father's Night. The first year class wishes to express thanks for the courtesy Mr. Holloway extended in having them visit his store.

Deceased was a member of a pioneer Medina County family. He was born at Fort Lincoln on February 9, 1857. As a young man he entered the cattle business and became one of the most successful stockmen of this section. In May, 1894, he was married to Miss Ida Reinhart in St. Dominic's Church at Old D'Hanis. About thirty years ago they left the ranch to make their home at Sabinal.

Funeral services were conducted by the pastor, Rev. Leo St. John, O. M. L., on Monday morning. Following a requiem mass in Sacred Heart Catholic Church at Sabinal, the remains were taken to San Fernando Cemetery in San Antonio for burial.

The pull-bearers were Richard Reily, Richard Carle, Reily Carle, Dr. Wm. A. Reily, Oscar Richarz, and Ed Ney. A large concourse of relatives and friends, who knew the deceased for his gentle kindness, followed the remains to their resting place.
